North Metro Cancellation and new date

March 24th North Metro Model Railroad Club Operations Day has been **cancelled**. The threat of the snow of the winter has caused the North Metro Model Railroad Club to cancel out operations event this Sunday! While there is no doubt the trains will operate well in the weather, there is concern for operators traveling to the event. The TLR members are invited to join the North Metro Club for a day of operations on **April 7th**. This is a great club to visit, to view and to operate. If you are new to operations, you can participate as a two person crew to help you learn the ropes. There is no charge but we recommend a donation.
